## Corner Direct Vent Fireplace

Tired of seeing the same fireplace everywhere you look? Make a bigger statement in your home with the BDCT by Stellar Hearth Products™.

Our 'Big Dog' corner fireplace offers a larger view of the fire without taking up more room in your home.

Add in optional firebrick refractory (shown above), ledgestone or mirrored interior and you have fireplace that is uniquely yours.

## BDCT Features:

- Pound for pound, the largest viewing area in its class. Fits into the same footprint as a typical 36" deepbox, yet has a viewing area that is 41% LARGER!
- 30,000 - 50,000 BTU's input/hr
- Patent-pending triangular box offers a unique view and great depth to enjoy the fire
- Optional ledgestone, refractory brick or mirrored interior panels create the perfect look for your home
- Patent-pending "floating firebox" gives a true clean-face look
- Optional 160 CFM blower kit
- Standard remote controls flames, fan speed and thermostat
- Clean Trim front available in Black Suede, Mahogany and Gun Metal Gray

## Interior Options

### One Fireplace - Three Distinct Looks!

It was time for someone to break the mold in fireplaces and help breathe some new life into peoples' homes. The BDCT has done just that and whether your décor is more traditional or more contemporary, there are optional interiors available to make it uniquely yours.

### Reflective Mirrors

Making the fireplace seem even larger than it is, the mirrors reflect all the beauty of the logs and fire inside. It gives the illusion of everything from being a see-through fireplace to a fireplace with multiple log sets and fires inside.

### Firebrick Refractory

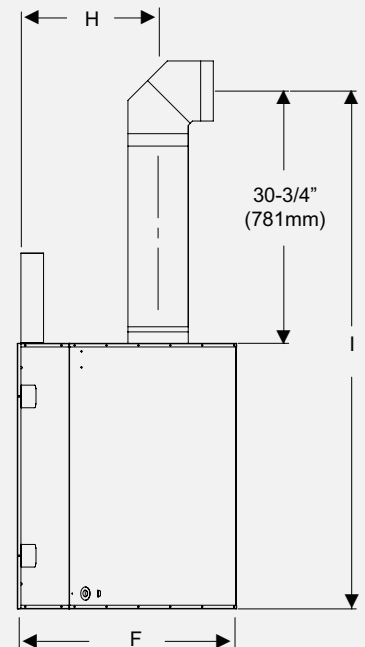

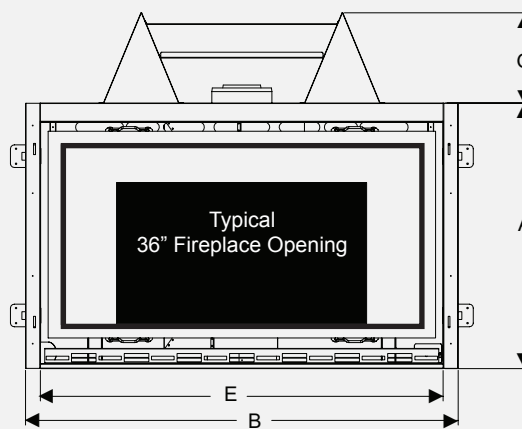

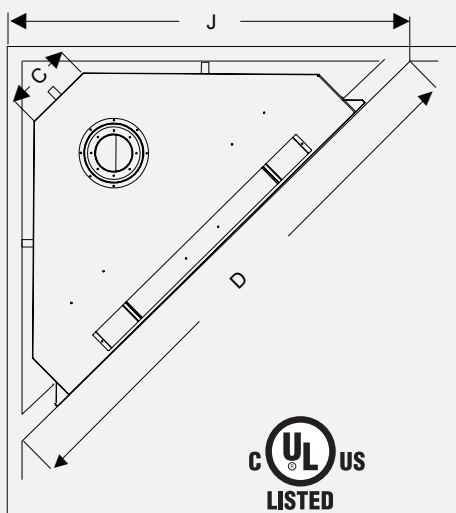

The more traditional firebrick refractory gives the fireplace the look of an authentic woodburning fire.

### Ledgestone

The thin-stacked, more transitional ledgestone has subtle brown and gray tones and is the perfect for the rich glow of the fire.

Typical Viewing Area for  
a 36" Fireplace is 34" x 20"  
BDCT is 48" x 24" - 41% LARGER
